

*Lomi* Psychotherapy Clinic

---

## **Licensed Psychologist – Full and Part Time**

The Lomi Psychotherapy Clinic is hiring full and part time licensed psychologists for supervision, training, and clinical work at our downtown Santa Rosa facility.

We have provided sliding scale care to the community for 29 years. Our clinical staff includes licensed and intern therapists. These positions will include supervision and training of psychologist practicum, pre- and post-doc interns, MFT, and LCSW trainees and interns. It will also include managing our Medicare program and includes conducting intakes, reviewing treatment documentation and insuring compliance with regulations.

Over the past years we have served as wide range of clientele, and continue to offer sliding scale therapy based on income, as well as Medicare and Medi-Cal services.

Our specialty has been an integrated Mindfulness-Based Somatic Therapy for individual adults and children, couples, family, and group therapy. Our integrative approach includes a psychodynamic view of people and also includes family systems, attachment based therapy, and cognitive-behavioral therapy. We see the whole person and assess what is the best approach for each client at this time in their lives.

We welcome your application to join our collaborative team. Our staff is always diverse and committed, and our clients come to us with a wide range of clinical presentations and need.

You will work with a staff of other supervisors and with the Clinical Director and Program Director. We look forward to talking with you about what you can offer our program and to give more detailed information about our program.

Compensation is competitive and depends on the number of hours worked in the program.
