CAPIC Cohort Consortium Agreement – 8/9/2016

CAPIC internship criteria requires that internships have a minimum of two on-site half-time and/or full-time doctoral psychology interns at the internship level of training during any period of training. The intention of this criterion is to allow opportunities for personal (face-to-face) interaction with peers in formal settings in the training program and on the training site during each training week.

For sites that do not meet the minimum cohort requirement at their agency, CAPIC has created an alternative Cohort Consortium Agreement that will allow the internship agency to meet criteria by creating an internship cohort across several agencies. Internship agencies can partner with other CAPIC internship sites that do not meet the minimum cohort or CAPIC internship sites that do meet the minimum and are willing to join the cohort consortium to expand the training opportunities for their interns. This agreement covers one internship training year with the expectation that all the participants will, in good faith, attempt to fulfill minimum cohort in the following internship training year.
